```java
vimport java.util.Scanner;

public class code81 {
    public static void main(String[] args) {
        Scanner scanner = new Scanner(System.in);
        System.out.print("Enter the number = ");
        int n = scanner.nextInt();
        int s = 0;
        int p = 1;
        while (n > 0) {
            if (n % 10!= 0) {
                s = s + (n%10) * p;
                p = p * 10;
            }
            n=n/10;
        }
        System.out.println("s="+s);
    }
}
```
